

Botanica

Carlton Cox - Artist

Image: Carlton Cox Tasmanian Blue Gum

Courtesy Blenheim Gallery and Garden

QVMAG's new exhibition Botanica explores the unique environments of flora – land and sea - influence life in countless ways: from food and medicines to visual art and design.

Botanica delights in the wonders of plant world, illustrated through QVMAG's diverse collections

Botanica is a portal into botany as science, industry, and art. It captures the imagination through its beauty, its history, and its extraordinary properties as humans strive to document and celebrate flora's beauty and impact.
